

February 25, 2024 To Our Passengers:

As many of you already know, Congestion Price Toll Rates are coming to Manhattan's Central Business District. The CBD tolling program includes the Queens Midtown Tunnel which Hampton Jitney vehicles enter frequently – Approximately 20,000 times in 2023.

The Traffic Mobility Review Board responsible for developing the Congestion Toll Rates recommended to the MTA, (who ultimately will set the tolls), that commuter services be exempt from the Congestion toll. However, the recommendation states that private carriers, like Hampton Jitney, Inc., should only be exempt if they have a municipal contract with a government entity for their services. Hampton Jitney, as well as its other branded scheduled services, has always operated independently without any contract, making a toll exemption for our services ambiguous at best. If we are not exempted from the Congestion Toll Program, our toll expenses will double.

Hampton Jitney has been a part of the Metro New York transportation system for 50 years. We are an authorized public transit carrier by the NY State Department of Transportation. Our intention is to continue advocating for an exemption from the Congestion Toll Program and we are asking for help from our Ridership. If you ride Hampton Jitney, Hampton Ambassador, or Hampton Luxury Liner, we need your support.

The MTA has opened the Congestion Pricing toll recommendations for public comment until March 11, 2024. ***Please visit the link below to express your support for an exemption of the Central Business District Tolling Program for Hampton Jitney, Inc. Even though we do not have a municipal contract for our services, we serve a vital role for hundreds of thousands of commuters traveling between NYC and the East End of Long Island.***
